

Laminex®

Waterloo™ Partitioning Systems

Partitions, Lockers, Vanities & Seating.

A proud
Australian
manufacturer

Laminex® Waterloo™ Partitioning Systems

Laminex Waterloo is made from high quality Australian Made Laminex substrates, backed by 85 years of expertise for quality you can trust. Assembled locally in Australia using only Global GreenTag certified Laminex substrates, the Laminex Waterloo range includes Shower and Toilet Partitions, Locker Systems, Vanities, Seating, Privacy Panels and Wall Panels. These can be customised for applications ranging from offices, retail spaces, health care facilities, educational facilities, sports and recreation venues and everywhere in between.

Why use Laminex Waterloo Partitioning Systems?

National Coverage

- National distribution coverage
- Nationwide approved referral installation network
- National sales & after sales support

Superior Quality

- Made from quality Laminex substrates with Global GreenTag certification
- Quality and durable system designs including:
 - Reinforced aluminium head rails for system strength
 - Anodised aluminium hardware & stainless steel screws
 - Rounded panel/door edges for added safety
- In-house design & manufacturing with total control of the process from start to finish.

Antimicrobial Surface Technology

- Laminex Multipurpose Compact Laminate & Laminex Structural MR® MDF features Protec+ Antimicrobial Technology, which inhibits the growth of bacteria, fungus, mould and now the COVID-19 virus.

Proud Australian Manufacturer

- Assembled in regional Australia
- Made from Australian made substrates.

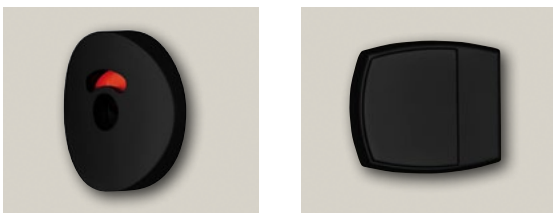

Superior Warranties & Guarantees

- Laminex Compact Laminate Warranty - 10 years
- Laminex Structural MR® MDF Warranty - 7 years
- Partitioning Door Hardware Replacement Guarantee* - 5 years

*Applies only to Partitioning Systems

Features & Benefits

Strong, robust hardware and fittings that complete the look

Our Waterloo range is supplied with a range of durable and high quality hardware for all of our systems.

Our Partitioning Systems are fitted with our exclusive 'Wave' hardware systems and stainless steel fittings for maximum reliability. We also use high quality reinforced aluminium headrails for added system strength.

And our Locker Systems use Europe's market leader, Ojmar locks, for our wide range of lock options.

Ease of installation

Laminex Waterloo Partitioning Systems are delivered cut-to-size and pre-drilled as 'flat packs,' complete with instructions and tools. In addition, our substrates are able to be cut on site if required.

This offer is available to all our account customers, but if you need someone to install our system for you, we have a nationwide approved referral installation network.

Sustainability

Laminex is committed to sustainability. It underpins all of our processes, from product manufacturing to building practices and forest management.

Our Laminex Waterloo range consists of two Global GreenTag rated substrates; Laminex Multipurpose Compact Laminate & Laminex Structural MR® MDF. Both are manufactured in wood sourced materials from sustainable, non-controversial plantations and achieve GreenRate Level A ratings.

Find all our documentation, certificates and reports at laminex.com.au.

Now more than ever, we understand the importance of maintaining hygiene in interior spaces we frequently touch such as such as toilet and shower partitioning.

Laminex has taken the lead with the introduction of Protec+, an antimicrobial surface technology that inhibits the growth of bacteria, fungus and now the COVID-19 virus, so whether you choose Multipurpose Compact Laminate or Structural MR MDF the surface will be protected.

Protec+ Fast Facts

Peace of mind

Laminex Protec+ antifungal and antibacterial properties do not wipe off or leach out of the surface. This gives you enhanced antimicrobial protection for the expected life of the surface.

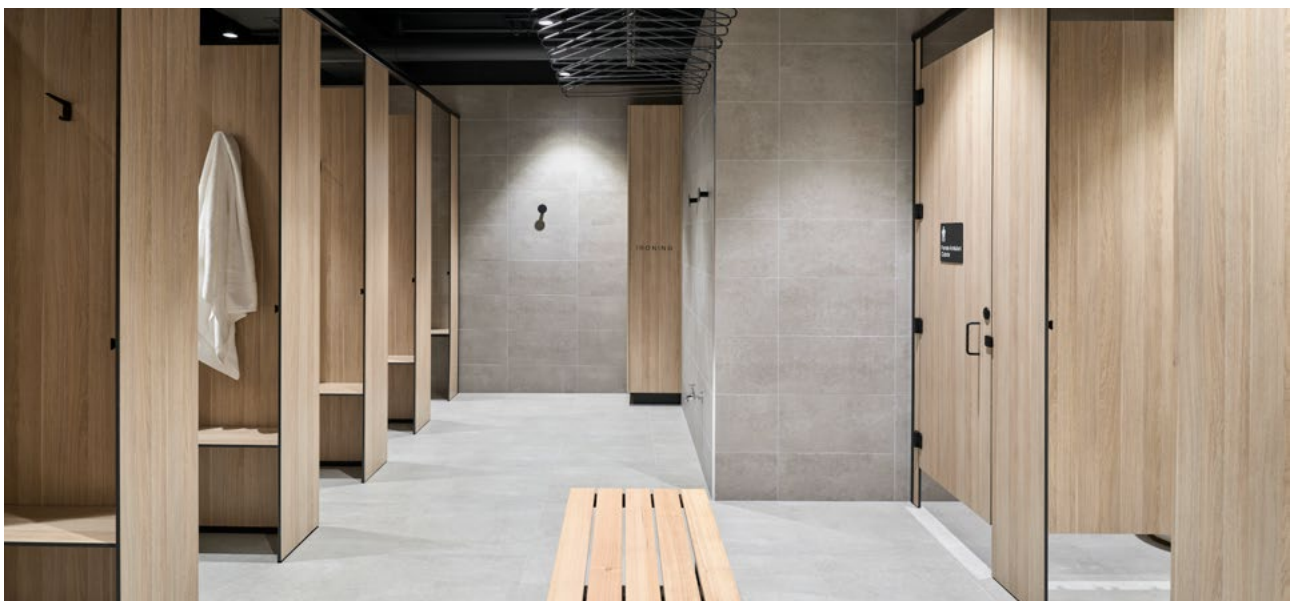

Cleaner environments, everywhere

Laminex Protec+ can be used to create a safer, cleaner environment anywhere, including hospitals, schools, hotels, shops, cafes, sport facilities and public toilets.

Proved effectiveness

Laminex Protec+ has been independently tested in accordance with a number of leading standards, including: ISO22196:2011, JIS Z2801 and ASTM G21, which measure antimicrobial activity and fungi resistance.

Vanity Base: Laminex Multipurpose Compact Laminate in Planked Urban Oak. Vanity Top: Laminex Compact Laminate in Otway.

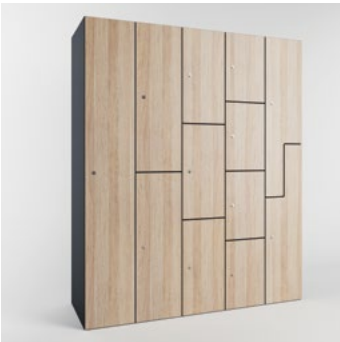

Navigating the range

With a range of different systems and products to choose from, there's a Laminex Waterloo system suitable for your next project.

Partitioning Systems

Discover Laminex Waterloo Partitioning Systems and learn how effortless toilet and shower partitioning can really be. Choose from our standard range of systems, or work with our expert design team on a custom solution.

Locker Systems

With a wide range of colours and systems to choose from, along with a range of hardware options, Laminex Waterloo can outfit your locker and storage needs to complete your fit out. Choose from 1, 2, 3, 4 or Z Door designs, or customise your design.

Seating Systems

Complete your fit out with our pre-fabricated or custom designed seating and combination units. Choose from island or wall seating systems with full or slat seat benches, or combine your seating and locker design by selecting a combination unit.

Vanities

Designed for style and strength, and available in a wide range of colours, complement the rest of your project with our range of versatile vanities.

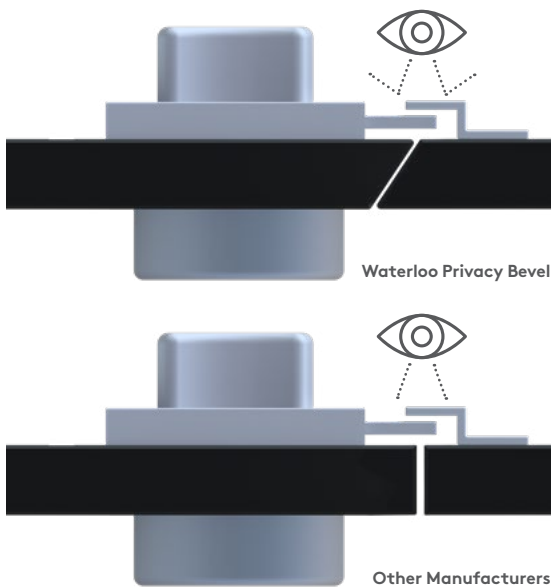

Select basins & tapware from a wide range to suit your design and application.

range.

Toilet & Shower Partitioning Systems

Available in a variety of functional designs, Laminex Waterloo Toilet & Shower Partitioning Systems are ideal for many applications, looks and budgets. Featuring our Protec+ anti-microbial technology, our impact resistant Multipurpose Compact Laminate and Structural MR MDF (dry areas only), and highest quality hardware are integrated into a design that offers exceptional durability and stability, is easy to clean and offers overall low maintenance.

Privacy is Not An Optional Extra

Now available as a standard design across our Compact Laminate Partitioning range, our Privacy Bevel profiled doors allows for ultimate privacy without compromising design and aesthetics.

NB. Privacy bevel is only available for Multipurpose Compact Laminate, not available in Laminex Structural MR® MDF.

Hardware & Components

Each system is pre-drilled and supplied with a range of durable, anodised hardware. A hardware kit includes a minimum of 3 concealed gravity hinges per door for added strength, door coat hooks, door stops, single action slide locks, slimline headrails and height adjustable legs where applicable.

For maximum reliability, our hardware is not off the shelf generic hardware. Instead we have developed our own exclusive 'Wave' hardware and reinforced aluminium headrails, and to top it off, all hardware is supplied with stainless steel fixings. Matte Black Hardware and Powdercoating Hardware to match Laminex Decors or Dulux colours is available as an upgrade option.

For even greater peace of mind, all Laminex Waterloo Partitioning System hardware now comes with a 5 year Door Hardware Replacement Guarantee, which includes hardware failure, as well as vandalism and accidental breakage.

Materials Substrate

Wet or dry areas - our products stand up in any environment.

All substrates are proudly made in Australia.

WET & DRY AREAS

Laminex Multipurpose Compact Laminate 13mm

- Self-supporting high pressure laminate based on thermosetting resins homogeneously reinforced with cellulose fibres.
- High pressure decorative laminate applied to both sides.
- All cut edges have a polished black edge that doesn't require additional laminate for added protection.
- Excellent resistance to scratches, graffiti, vandalism and water.
- Premium level of hygiene protection in healthcare environments.
- Limited colours also available in 18mm, refer to Availability Guide.
- All Laminex Multipurpose Compact Laminate comes with Protec+ Antimicrobial Technology, making it the safer choice.
- Global GreenTag Certified - Level A.

Made in Australia

Protec+ Antimicrobial Technology

DRY AREAS ONLY

Laminex Structural MR[®] MDF 18mm/32mm

- A robust MDF core that provides superior impact resistance. The 18mm substrate features an extra high density core for up to twice the impact resistance of Laminex Vertiboard 18mm.
- Decorative melamine surface pressed on both sides of the board.
- All Laminex Structural MR MDF comes with Protec+ Antimicrobial Technology, making it the safer choice.
- Global GreenTag Certified- Level A.
