Navigating the range.

We know design decisions can be challenging, so to help make things easier we have curated a timeless palette of White and Neutral laminates that are split into three categories – Whites, Mid Tone Neutrals and Dark Tone Neutrals – in addition to Accent décors which you can use to create your own unique interior.

Whites

The Laminex Whites range has the power to radically transform a space. The cooler whites bring an open, contemporary look to projects, while our warmer whites work beautifully within classic interior styles.

Mid Tone Neutrals

Neutrals inspired by nature, the mid tone décors offer a range of raw, organic tones ranging from warmer, creamy hues to cooler, more relaxed shades of grey.

Dark Tone Neutrals

Bringing a deeper intensity of colour, the range of dark tones feature a mix of smokey and strong blues and greys, through to intense charcoals and inky blacks.

Accents

The Laminex Accents range is an evolving palette of décors that reflect shifting design trends. Accent colours can help lift and add impact with soft and delicate pastels to brilliant bolds, or even create whole rooms of pop and vibrancy.

Laminex laminates combine timeless and contemporary colours and finishes with the durability to stay looking pristine in the most demanding interior environments. They're hardwearing, stain resistant, easy to clean, and rigorously tested to ensure that they satisfy Australian standards for surface materials.

Laminex Finishes.

The Laminex Whites, Neutrals and Accents are available in a range of products and finishes for various applications. Here's a guide to each of the laminate finishes:

Whites.

White is a classic decorating choice, and the right shade can completely transform your space. Used as an all over colour or as a supporting base, whites are the perfect start to your project. Cooler tones deliver a fresh, contemporary approach, while warmer tones create a soft, uplifting and welcoming feel.

Mid Tone Neutrals.

Laminex mid tones are a versatile collection of lighter-toned neutrals, often inspired by the flora, fauna and wildlife around us. When choosing a neutral shade, first consider your space and personal style. Cooler neutrals are perfect for a laid back and inviting space and warmer tones can create an organic look.
